Groundbreaking
compressed air technologies

Innovation, efficiency & total connectivity

Setting new standards in technology advancement

CompAir have been at the forefront of compressor design and manufacture for over 200 years, and are committed to quality, innovation and understanding the customers' individual business and operational requirements. Not only meeting, but exceeding quality and production objectives for industries across the globe.

Looking after the environment & your bottom line

Sustained efficiency is vital within compressed air solutions for both reducing operational costs and optimising installations. Committed to developing environmentally friendly solutions, we ensure that our customers meet the demands of climate change legislation - reducing their carbon footprints by cutting energy bills and simply operating more efficiently.

Innovation & expertise breeds efficiency

Continuous innovation by CompAir delivers an extensive range of extremely reliable, energy efficient compressors, accessories, management and air treatment solutions. Our customers' trust in our expertise and experience in delivering solutions with the utmost innovation, the maximum efficiency and total connectivity.

Ultima redefines efficiency

The unique design of the new Ultima compressor range from CompAir, delivers outstanding efficiency with up to 13% power savings versus traditional oil-free technology. Considering that the highest cost in the lifecycle of a compressor is the energy to run it, these energy savings have a significant impact.

Engineering excellence - the power to innovate

Advanced compression technologies are at the heart of every CompAir compressor and it is therefore vital that we keep the design and manufacture in-house, utilising the latest CNC machinery and online laser technology to develop our own airends - our compressor's core component.

This engineering excellence ensures that our customers receive consistent, high quality, low cost air.

A brand of Gardner Denver

The CompAir brand is synonymous with reliability and energy efficiency - backed by the Gardner Denver Industrial Group, a major global player in the design, manufacture and marketing of a broad range of compressors, vacuum pumps and blower products.

Our capabilities in a wide range of innovative technologies allow us to offer the best solutions to our end-user and OEM customers worldwide, across numerous industries and applications. The global offering also includes a comprehensive suite of aftermarket services to complement the products on offer.

Case Study

Success - Jaguar significantly reduces energy with Quantima

Six months after the installation of new Quantima compressors made by CompAir, Jaguar Land Rover's Castle Bromwich works are looking to make power savings of 3 million kWh a year – with a payback time of two years at the most.

Cutting edge solutions you can rely on

Tailor-made installations

Increasing complexity of production facilities and system requirements, coupled with higher energy costs, plus carbon and emissions levies and taxes, makes the correct assessment and specification of compressed air solutions vital. The performance and efficiency of compressed air systems affects the environmental impact of your business, and your bottom line.

iConn - smart and proactive real-time monitoring for total peace of mind

Proactive real-time monitoring and insight for your compressed air installation, then keeps you one step ahead by predicting potential issues before they happen, while managing and optimising production to increase energy efficiency.

Air audits get the best out of your compressed air system

CompAir's audits and expertise will ultimately save money, helping to achieve the lowest operating costs and a fast return on investment, at the same time improving manufacturing productivity.

CompAir's innovative stable of compressors covers all industries and applications and offers:

- Fixed and regulated speed compressors
- Oil-free and oil-lubricated compressors
- Air and water cooled compressors
- Heat recovery, nitrogen generation and air treatment options
- Multi-compressor controllers and sequencers

Analysis

Advice

Project planning

Installation

Warranty

Maintenance

Original spare parts

In safe hands

Free extended warranties covering both oil-free and oil-lubricated compressed air solutions, ensure our customers' peace of mind. Some of the most generous warranties in the industry guarantee a quality service with accurate maintenance, budgeting and cost of ownership.

The use of genuine CompAir parts and lubricants further maximises compressor life and efficiency, while the actual design of our equipment ensures ease of installation and servicing, with lower maintenance costs due to a reduction in moving parts.

Our factory trained technicians provide 24 hour, local support.

Case Study

Success - World's oldest brewery reduces power by 30%

The Weihenstephan brewery in Freising near Munich has completed the optimisation of its compressed air supply system with a new CompAir DH compressor, which works to an innovative compression principle and is completely oil-free. Together with targeted leakage elimination, the brewery is now able to generate its compressed air requirement with roughly 30% lower power costs.

Single source product and service capability

PureAir Oil-Free	Pressure range (bar)	FAD (m ³ /min)	Motor output (kW)
D-Series Oil-free screw compressors	4 - 10	7.0 - 42.6	75 - 300
DH-Series Oil-free water-injected screw compressors	5 - 10	2.3 - 18.6	15 - 110
Quantima Oil-free centrifugal compressors	3 - 8	26.7 - 70.9	150 - 300
Ultima Oil-free two-stage two permanent magnet motors screw compressors	8 - 10	6.7 - 23.3	75 - 160
S-Series Oil-free scroll technology screw compressors	8 - 10	0.35 - 1.77	4 - 15
R-Series Oil-free high-output piston compressors	4 - 12	7.5 - 18.1	45 - 110

Lubricated Screw	Pressure range (bar)	FAD (m ³ /min)	Motor output (kW)
L Series Oil-lubricated screw compressors	5 - 13	0.2 - 47.1	2.2 - 250

Compressed air treatment and accessories
Heat recovery
Water separators
Compressed air filters
Adsorption dryers
Nitrogen generators
Condensate drains
iConn proactive real-time monitoring
Delcos compressor controllers
SmartAir master sequencers

Service and maintenance

Worldwide spare parts and distribution network

Mobile compressed air solutions

Portable Compressors	Pressure range (bar)	FAD (m ³ /min)	Motor output (kW)
C-Series Oil-lubricated portable screw compressors	7 - 24	1.0 - 27.0	13.2 - 228

Foundation pile air bubble curtain protects nature

50 nautical miles north west of Sylt, ZÜBLIN has built the third German marine research platform FIN03, on the edge of a potentially suitable area for wind turbines off the Schleswig-Holstein stretch of the North Sea coast. To protect marine fauna from acoustic emissions while the foundation pile was being driven, 9 CompaAir TurboScrew compressors produced an air bubble curtain around the construction site.

Case Study

Global experience – truly local service

With over 200 years of engineering excellence, the CompAir brand offers an extensive range of highly reliable, energy efficient compressors and accessories to suit all applications.

An extensive network of dedicated CompAir sales companies and distributors across all continents provide global expertise with a truly local service, ensuring our advanced technology is backed up with the right support.

As part of the worldwide Gardner Denver operation, CompAir has consistently been at the forefront of compressed air systems development, culminating in some of the most energy efficient and low environmental impact compressors on the market today, helping customers achieve or surpass their sustainability targets.

CompAir compressed air product range

Advanced Compressor Technology Lubricated

- Rotary Screw
 - > Fixed and Regulated Speed
- Piston
- Portable

Oil-Free

- Water Injected Screw
 - > Fixed and Regulated Speed
- Two Stage Screw
 - > Fixed and Regulated Speed
- Piston
- High Speed Centrifugal - Quantima®
- Rotary Scroll

Complete Air Treatment Range

- Filter
- Refrigerant and Desiccant Dryer
- Condensate Management
- Heat of Compression Dryer
- Nitrogen Generator

Modern Control Systems

- CompAir DELCOS Controllers
- SmartAir Master Sequencer

CompAir policy is one of continuous improvement and we therefore reserve the right to alter specifications and prices without prior notice. All products are sold subject to the Company's conditions of sale.

Value Added Services

- Professional Air Audit
- Performance Reporting
- Leak Detection

Leading Customer Support

- Custom Engineered Solutions
- Local Service Centres
- Genuine CompAir Parts and Lubricants
